REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: None of the prior art of record teach or suggest a blow molding device that has at least one blow station with at least one blow mold that is comprised of at least two blow mold segments held by supports and wherein at least one of the blow mold segments is arranged such that it can move relative to its support wherein the support is equipped with at least two guide elements for the movable blow mold segment and in that the guide element has a hard core that is connected to the blow mold segment and that is embedded in an elastomer that is carried by the support or wherein the blow mold segment is sealed by a circumferential elastomer seal with respect to the support in an area of action provided for the application of pneumatic pressure, and in that the seal has a seal lip that makes contact with the support when pressure is applied. The closest prior art Mnilk et al (3,829,264) comprises an adjusting means by means of a fluid inflated plate (13), but the reference does not disclose a guide element having a hard core embedded in an elastomer or a circumferential seal having a seal lip that contacts the support when pressure is applied.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
